

Southeastern Chapter - National Safety Council

Alive at 25 Fact Sheet

The Southeastern Chapter - National Safety Council believes all young adults between the ages of 15-24 should have the opportunity to become responsible crash-free drivers. Alive at 25 is a young drivers program that bridges the gap between what teens learn in Driver's Education and the behaviors and skills they need to be responsible behind the wheel.

Driver's Education Courses

Alive at 25

Teaches driving mechanics	Focuses on driving behaviors rather than the mechanics of driving
Driver's Education training is a course which teaches the student basic operations of a motor vehicle. <ul style="list-style-type: none">• 8 hours of classroom instruction• 6 hours behind the wheel• Preparation for the road test	Designed to help participants recognize that their inexperience and casual attitudes toward driving can cause violations, collisions, injury and death Encourages students to adopt safer approaches to driving
Designed to help first time drivers and teens prepare for written driver tests, teach the rules of the road and vehicle safety	Emphasizes open discussion rather than lecture Students have the opportunity to discuss their attitudes and feelings related to peer pressure, intentional risk taking, hazard recognition and accepting responsibility for the choices they make while driving.
Introduces first time drivers to the rules of the road, state specific laws, important techniques, and other driving objectives to prepare them to take the road test to obtain their license.	Off-duty law enforcement officers facilitate the course. Instructors are selected not only for their knowledge of motor vehicle laws and defensive driving, but also for their proven ability to work effectively with young people and create an atmosphere conducive to open and meaningful discussions. The program allows students to discuss the peer pressures associated with teen driving and the consequences of poor decisions with a strong emphasis on making informed decisions.
